Buckle-Up Car Seat Inspection Event Scheduled

In order to promote child passenger safety, South Central District Health, Magic Valley Safe Kids Coalition, Team Con Paulos, and the Twin Falls Fire Department are partnering to offer a free car seat inspection event. This event will take place on February 10, 2004, from 2-6 p.m. at the fire department located at 635 Falls Avenue in Twin Falls.

Certified child passenger safety technicians will be checking car seats for misuse and providing education on correct installation of a car seat. Technicians will make sure the car seat is not on the recall list, is not outdated, and is appropriate for the child using it.

Eight out of ten car seats are incorrectly installed. Assure that your car seat is installed properly by attending this free event! For more information, call Susie Beem at 734-5900, ext 246, or Kyla Kelly at 737-2432.
